Cold Storage Solutions Controller (CSSC)

To help you benefit from optimum performance and efficiency of your refrigeration system, we offer the smart refrigeration controller.

- Two energy efficient defrost settings
 - Smart defrost
 - Demand defrost
- Electronic expansion valve
- Fully integrated control solution
- **Standard offering at no up-charge from conventional systems**

Slip Resistant, Antibacterial Flooring

All of our walk-ins are available with an optional slip resistant, antibacterial flooring, to provide a safer and more hygienic working environment.

- Better slip resistance than ADT by ASTM F 1679 test standards
- Antibacterial pre-coated steel
- Eliminates many harmful and potentially dangerous bacteria strains
- NSF certified
- High resistance to corrosion and scratches
- Designed to withstand foot and hand cart traffic
- **Standard offering at no up-charge from smooth aluminum flooring**
