

Panel Walk-Ins

With flexible design for your unique setting, CrownTonka panel walk-in refrigeration units can be perfectly fitted for your cold storage space. Our durable modular options offer maximum efficiency, excellent construction and superior materials.

Designed specifically to meet the needs of commercial and non-commercial foodservice institutions, CrownTonka panel walk-in coolers and freezers provide you with optimal cold storage for your kitchen – regardless of your particular foodservice application.

CrownTonka panel units allow you to design the perfect temperature controlled walk-in solution for your refrigerated space.

EASIER COOK-CHILL PROCESS

Improve the overall safety of the food you serve

Walk-ins provide a more controlled refrigeration temperature that can be regularly monitored and adjusted based on your inventory.

Improve the overall quality of the menu items you prepare

Walk-in coolers allow operators to keep a larger inventory of fresh vs. frozen menu items at exactly the right temperature.

CLASSIFICATIONS & APPROVALS

All CrownTonka panel walk-in units are approved under numerous classifications, providing our customers with total peace of mind over perishable inventories:

- EISA-compliant
- NSF-certified
- U.L./Class 1-listed urethane foam insulation
- FM4880-approved (PN #613)
- USDA-approved materials
- UL/ULC electric
- U.L. Listed, Classified Building Unit Panels
- Meets the certification standards of multiple U.S. state and Canadian licensure and compliance codes

Product Highlights

Insulated Panels

- Non-HCFC insulation
- NSF-certified
- Thicknesses: 3.5", 4", 5" or 6"
- Tongue-and-groove construction
- Air-tight seal

Floor Panels

- Standard .050 smooth aluminum, Sanisteel or 22-gauge type 304 stainless steel with #2B finish
- Standard load up to 1000 lbs/sq ft
- Superfloor load up to 5000 lbs/sq ft

Doors

- In-fitting, overlap and self-closing
- Swing operation flush doors
- High-quality, heavy-duty hardware and safety release
- Magnetic door gasket and bottoms
- Pre-hung (up to 48")
- Heated door jamb and threshold (freezer models)

Finishes

- Internal and external 26-gauge galvanized steel (std)
- Optional: aluminum, Acrylume, stainless steel or antimicrobial Sanisteel
- White, black, almond or custom color paint
- Brick or stone effects available to complement environment

Structural Safety

- Easily constructed
- Metal-facing, foam-in-place bonding
- Wood or high-density foam rails
- Gasket application on all joints
- Cam lock panel fastening

Customization

- Door systems designed to accommodate space, access and egress
- Variable mounts, coils and condensing units according to application needs
- Flooring, controls, and insulation levels tailored to fit space and application
