

# Mesa Profile Finish

Superior Insulated Metal Panels

Everidge's Mesa Profile is our most popular insulated metal panel, perfect for both cold-storage and commercial/industrial applications. It offers strength, facilitates foam adhesion, and minimizes natural imperfections in steel faces.

## Strength and Durability

The lined profile enhances strength, facilitates foam adhesion, and minimizes natural imperfections in steel faces, ensuring long-lasting performance.

## Vapor Seal

The shallow Mesa rib profile does not effect our robust vapor seal, which is crucial for maintaining controlled environments and energy efficiency.

## Dual-Sided Application

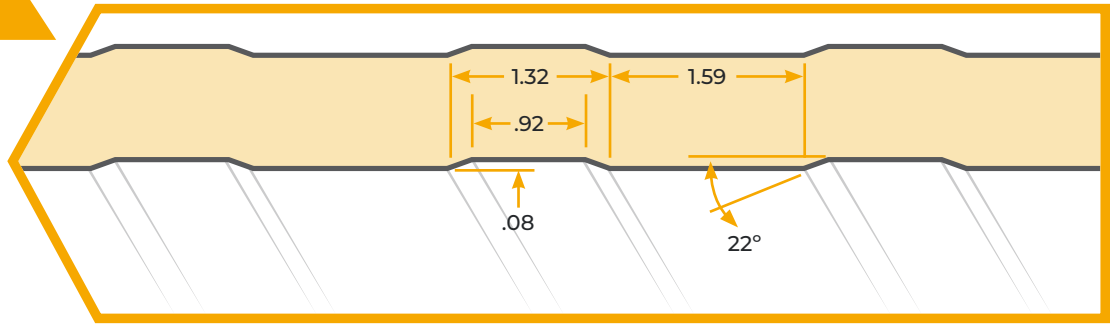

The Mesa profile is available on wall and ceiling panels, the Mesa Profile can be applied to both the interior and exterior sides, reinforcing structural integrity and visual appeal.

## Weather Resistance

Ideal for outdoor use, the Mesa Profile adds structural strength to withstand temperature fluctuations, ensuring durability in varying environmental conditions.

## Dimensions

## Applications

- **Cold-Storage Facilities:** The Mesa Profile reinforcing the panel skins, helps to ensure reliable temperature control and energy efficiency, vital for preserving perishable goods.
- **Commercial/Industrial Settings:** Commercial/ Industrial Settings: The profile enhances building performance and aesthetics, suitable for warehouses, manufacturing facilities, and more.

## Benefits

- **Visual Appeal:** The Mesa Profile's sleek design complements architectural aesthetics, making it an attractive choice for building exteriors.
- **Structural Integrity:** Reinforced metal skins withstand contraction and expansion due to temperature changes.

Everidge's Mesa Profile offers reliable performance and visual appeal, backed by industry expertise and quality standards.

## Specifications

- Panel Use: Exterior wall, partition wall, liner wall, ceiling
- Coverage Width: Up to 47"
- Thickness: 3.5", 4", 5", 6"
- Length: Minimum of 8'
- Exterior Gauge: 26, 24, 22
- Interior Gauge: 26, 24, 22
- Interior Finish: Polyester, Siliconized Polyester, Plastisol (PVC)
- Exterior Texture: Embossed, Smooth
- R-Value: R-8 inch of thickness (nominal)
- Interior & Exterior Substrates: Galvanized, Aluminum, and Stainless Steel
- Exterior Finish: Polyester, Siliconized Polyester, low-gloss PVDF, Plastisol (PVC)
