

HOW TO UPDATE YOUR EXISTING ACCOUNT:

We've launched an improved SmartRite App to make monitoring your cold storage system even easier. To update your SmartRite system, first delete the previous app from your device. Then follow the instructions below to download the new SmartRite App.

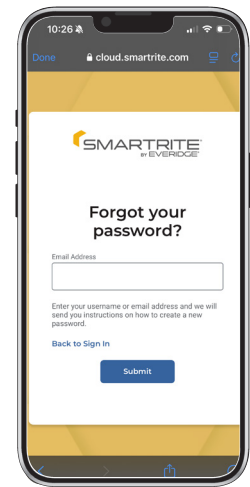

1 Download the newest SmartRite App from your device via the App or Google Play store.

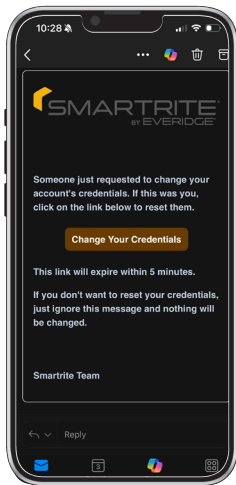

2 Select "Forgot Password".

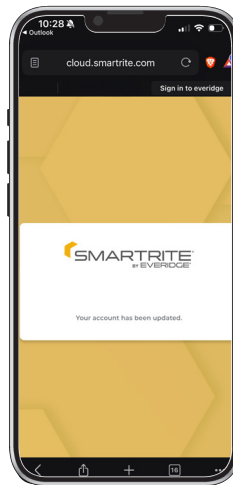

3 Fill in your email address and select "Submit".

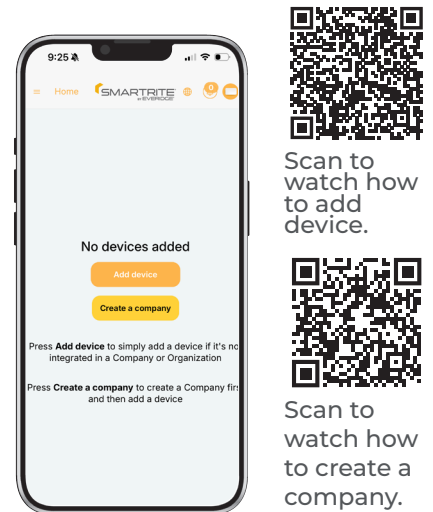

4 Confirm your email address (sent to your email) and then select "Change Your Credentials" within the email.

5 Login using your new credentials.

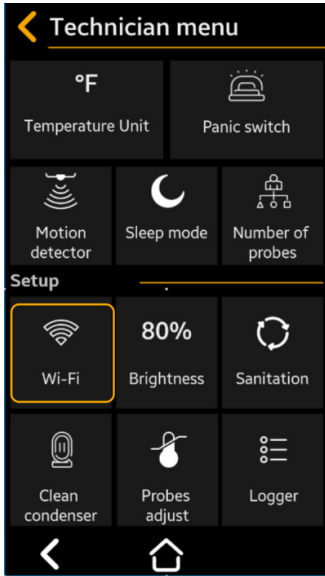

6 Add your SmartRite device or Create a company

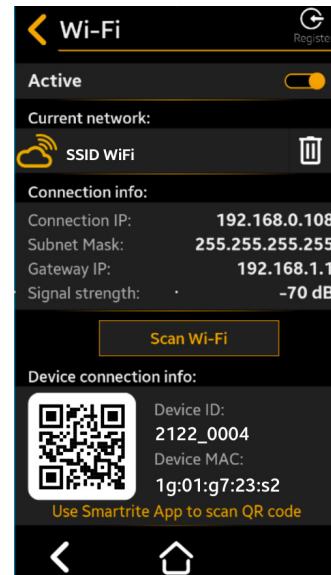

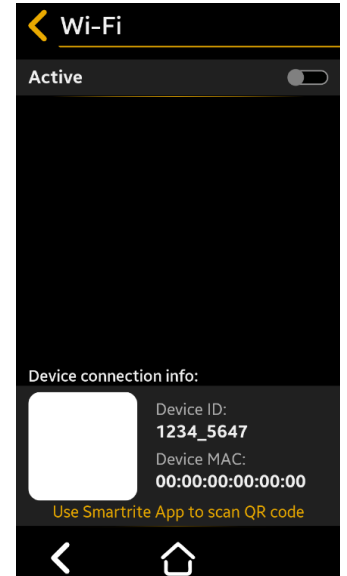

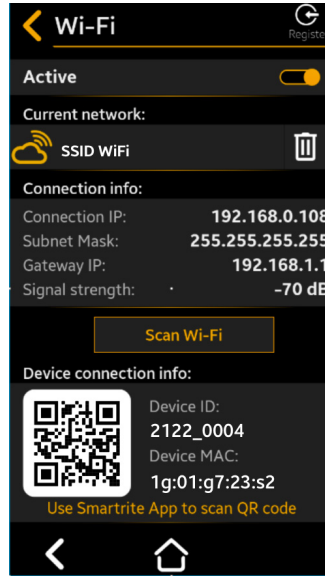

HOW TO UPDATE YOUR SMARTRITE CONTROLLER:

1 From the SmartRite Controller:
Access the Technician Menu
 Navigate to the Menu > Technician Menu > Wi-Fi section.

2 Toggle Wi-Fi Module Off and On
 Toggle WiFi Off and back On your device to connect to the new platform
