

Everidge's Construction Services team brings over 160 years of combined experience to every project—offering certified installation, ReFresh® refurbishment, and turnkey contracting. We minimize downtime, extend equipment life, and ensure precision from coordination to commissioning, backed by extended warranties and long-term value.

Certified Installation by Everidge

Everidge provides factory-certified installation for all its products, ensuring precision, efficiency, and extended warranties through a single point of contact. Our expert team works closely with contractors to manage everything from delivery to cleanup, reducing delays and ensuring quality.

ReFresh® Program

The ReFresh program refurbishes walk-in coolers and freezers—any brand—to improve performance, hygiene, and energy efficiency. This turnkey solution extends equipment life, reduces operational disruptions, and avoids the cost of full replacement.

Turnkey Contracting Services

Everidge's turnkey services provide end-to-end project management, from planning and coordination to execution and closeout. Our experienced team ensures seamless delivery and accountability across all phases of construction and installation, from panels to refrigeration.

Why Choose Everidge?

- **Direct Manufacturer Expertise**
Work directly with Everidge for streamlined communication and unmatched product knowledge.
- **Extended Warranties**
Enjoy peace of mind with longer coverage on certified installations.
- **Factory-Certified Commissioning**
Our trained installers ensure every unit meets exact specifications.
- **Single Point of Contact**
One dedicated contact keeps your project on track and error-free.

Turnkey Contracting Services

- **Comprehensive Project Management**
We manage every detail—from material procurement and plan/specification reviews to subcontractor oversight—with onsite presence and full accountability.
- **Tailored Solutions**
We collaborate with you to align scope, cost, and schedule—delivering custom solutions that fit your needs.
- **Transparent Process**
Our step-by-step approach—from discovery and site evaluation to execution and closeout—ensures clarity, quality, and control at every phase.

Our Process Includes

- Site prep check, delivery coordination, and material inspection
- Real-time updates and daily progress tracking
- Final walkthrough and commissioning to ensure performance
- Full documentation and quality assurance at closeout
